COMMUNITY HEALTH SYSTEMS, INC. ANNOUNCES
FIRST QUARTER 2006 RESULTS WITH NET OPERATING REVENUES UP 13%

BRENTWOOD, TN. (April 26, 2006) -- Community Health Systems, Inc. (NYSE: CYH) today announced financial and operating results for the first quarter ended March 31, 2006.

Net operating revenues for the quarter ended March 31, 2006, totaled \$1.027 billion, a 13.0% increase compared with \$908.3 million for the same period last year. Income from continuing operations increased 16.7% to \$57.3 million, or \$0.58 per share (diluted), on 98.2 million weighted average shares outstanding for the quarter ended March 31, 2006, compared with \$49.1 million, or \$0.52 per share (diluted), on 98.1 million weighted average shares outstanding for the same period last year. Net income increased to \$54.0 million, or \$0.55 per share (diluted), for the quarter ended March 31, 2006, compared with \$36.0 million, or \$0.39 per share (diluted), for the same period last year. Loss on discontinued operations for the quarter ended March 31, 2006, consists of an after-tax loss of approximately \$3.2 million, or \$0.03 per share (diluted), related primarily to the sale of one hospital in March of 2006, which was designated as being held for sale at December 31, 2005.

The first quarter 2006 results include additional compensation expense of \$3.2 million, or \$0.02 per diluted share, resulting from stock-based compensation calculated under SFAS No. 123(R), "Share-Based Payment".

Adjusted EBITDA for the first quarter of 2006 was \$158.5 million, compared with \$143.8 million for the same period last year, representing a 10.2% increase. Adjusted EBITDA is EBITDA adjusted to exclude discontinued operations and minority interest in earnings. The Company uses adjusted EBITDA as a measure of liquidity. Net cash provided by operating activities for the first quarter of 2006 was \$90.8 million, compared with \$148.7 million for the same period last year.

The consolidated financial results for the quarter ended March 31, 2006, reflect a 4.6% increase in total admissions compared with the same period last year. This increase is primarily attributable to hospitals acquired during 2006 and 2005. On a same-store basis, admissions decreased 2.4% and adjusted admissions decreased 0.9%, compared with the same period last year. The absence of a flu season and respiratory - related volume contributed to these decreases compared to a strong season last year. On a same-store basis, net operating revenues increased 6.8%, compared with the same period last year.

Commenting on the results, Wayne T. Smith, chairman, president and chief executive officer of Community Health Systems, Inc. stated, "The first quarter marks a very strong start to 2006. For the first time in Community Health Systems' operating history, the Company exceeded \$1 billion in quarterly revenues. In addition to our impressive top-line growth, we have compiled an enviable track record of consistently meeting our earnings targets. Our continued profitability and operating execution reflects our ability to leverage our proven centralized and standardized operating platform in our hospitals."

(a) Pursuant to Statement of Financial Accounting Standards ("SFAS") No. 144, the Company has restated the first quarter 2005 financial statements and statistical results to reflect the reclassification as discontinued operations of one hospital designated as being held-for-sale during the second quarter of 2005, which was subsequently sold in March of 2006. Four hospitals were previously classified as discontinued operations in 2005.

(b) Includes additional compensation expense of \$0.02 per share (diluted) resulting from stock-based compensation calculated under SFAS No. 123(R) "Share-Based Payment". The Company adopted SFAS No. 123(R) beginning January 1, 2006, using the modified prospective application transition method.

(c) For purposes of calculating earnings per share for the quarter ended March 31, 2005, the convertible notes are dilutive and accordingly after tax interest expense of \$2.2 million per quarter is excluded from the calculation of earnings and 8.6 million shares are added to the number of shares outstanding to calculate fully diluted earnings per share.

(d) Adjusted to include assumed exercise of employee stock options and assumed conversion of convertible notes. As of March 31, 2006, all of the convertible notes have been redeemed. 8,569,593 shares of common stock of the Company were issued upon conversion of the outstanding notes and \$0.4 million of the notes were redeemed in exchange for cash. There was no impact on earnings per share (diluted) as a result of this conversion since weighted average number of shares outstanding-diluted for the three months ended March 31, 2005 included the shares issuable upon conversion of the convertible notes.

- (e) EBITDA consists of income before interest, income taxes, and depreciation and amortization. Adjusted EBITDA is EBITDA adjusted to exclude discontinued operations and minority interest in earnings. The Company has from time to time sold minority interests in certain of its subsidiaries or acquired subsidiaries with existing minority interest ownership positions. The Company believes that it is useful to present adjusted EBITDA because it excludes the portion of EBITDA attributable to these third party interests and clarifies for investors the Company's portion of EBITDA generated by continuing operations. The Company uses adjusted EBITDA as a measure of liquidity. The Company has included this measure because it believes it provides investors with additional information about the Company's ability to incur and service debt and make capital expenditures. Adjusted EBITDA is the basis for a key component in the determination of the Company's compliance with some of the covenants under the Company's senior secured credit facility, as well as to determine the interest rate and commitment fee payable under the senior secured credit facility.

Adjusted EBITDA is not a measurement of financial performance or liquidity under generally accepted accounting principles. It should not be considered in isolation or as a substitute for net income, operating income, cash flows from operating, investing or financing activities, or any other measure calculated in accordance with generally accepted accounting principles. The items excluded from adjusted EBITDA are significant components in understanding and evaluating financial performance and liquidity. This calculation of adjusted EBITDA may not be comparable to similarly titled measures reported by other companies.

The following table reconciles adjusted EBITDA, as defined, to net cash provided by operating activities as derived directly from the consolidated financial statements for the three months ended March 31, 2006 and 2005 (in thousands):

The following assumptions were used in developing the guidance provided above:

- - For comparative purposes, the 2005 actual results have been restated to include pro-forma stock-based stock option compensation expense of \$17.6 million, or \$0.11 per share (diluted) as if SFAS No. 123(R) was adopted on January 1, 2005, and reflected in the Company's reported earnings for 2005. Adjusted EBITDA and income from continuing operations per share - diluted, as reported in 2005 were \$573.2 million and \$2.02 per share, respectively. The quarterly income from continuing operations per share-diluted, as reported in 2005 were \$0.52 (1st qtr.), \$0.49 (2nd qtr.), \$0.47 (3rd qtr.) and \$0.54 (4th qtr.).
- - On January 1, 2006, the Company adopted SFAS No. 123(R), using the modified prospective application transition method. For the year ending December 31, 2006, the Company anticipates recognizing stock - based compensation expense of approximately \$20 million, or \$0.13 per diluted share as compared to \$5 million, or \$0.03 per diluted share recognized for the year ended December 31, 2005 under APB No. 25. Thus, the 2006 projected results does include additional stock - based compensation expense of \$15 million, or \$0.10 per diluted share.
- - Expressed as a percentage of net operating revenue, provision for bad debts is projected to be approximately 10.2% to 10.5% for 2006.
- - Capital expenditures are as follows (in millions):

	Actual 2005	Guidance 2006
	-----	-----
Total	\$ 200	\$ 250 to \$260

- - Expressed as a percent of net operating revenues, total depreciation and amortization is projected to be approximately 4.2% to 4.6% for 2006; however, this is a fixed cost and the percentages may vary as revenue varies. The adoption of FASB Interpretation No. 45-3 (Entitled Minimum Revenue Guarantees Granted to a Business or Its Owners), requiring the Company to begin capitalizing and amortizing certain elements of its physician recruitment costs, is not expected to have a material impact on earnings during 2006.
- - Expressed as a percentage of income before income taxes, provision for income tax is projected to be approximately 38.5% to 39.0% for 2006.
- - The Company is exposed to London Inter-Bank Offer Rate ("LIBOR") based interest rates, which have been increasing over the past two years. The following is a summary of the three-month LIBOR rates at various dates:

December 31, 2003	1.15188%
December 31, 2004	2.56438%
December 31, 2005	4.53625%
March 31, 2006	5.00000%

To partially offset the rise in LIBOR rates, the Company is currently a party to ten separate interest swap agreements to limit the effect of changes in interest rates on a portion of the Company's long-term borrowings. On each of the swaps, the Company receives a variable rate of interest based on the three-month LIBOR, in exchange for the payment by the Company of a fixed rate of interest. Currently, the Company pays on a quarterly basis a margin above LIBOR of 175 basis points for revolver loans and term loans under the senior secured credit facility. For the purpose of providing 2006 projection range guidance, the Company has assumed that future LIBOR rates for borrowings under the Company's \$1.625 billion Senior Secured Credit Facility will increase based on market quotations of the forward yield curve and other economic forecasts.

- - The following table reconciles adjusted EBITDA, as defined, to the Company's estimated net cash provided by operating activities as presented in the guidance shown on page 9:

	2005 Actual Results Adjusted for Pro- forma Stock- Based Compensation Expense	2006 Projection Range (in millions)	
	-----	-----	-----
Adjusted EBITDA	\$ 556	\$ 620	\$ 645
Taxes and interest expense	(209)	(226)	(235)
Other non-cash expenses and net changes in operating assets and liabilities	64	36	40
	-----	-----	-----
Net cash provided by operating activities ...	\$ 411	\$ 430	\$ 450
