**COMMUNITY HEALTH SYSTEMS, INC. ANNOUNCES  
FOURTH QUARTER 2007 RESULTS WITH NET OPERATING REVENUES OF \$2.5 BILLION**

FRANKLIN, Tenn. (February 21, 2008) — Community Health Systems, Inc. (NYSE: CYH) today announced financial and operating results for the three months and year ended December 31, 2007.

As previously announced, the Company completed its acquisition of Triad Hospitals, Inc. ("Triad") on July 25, 2007, making the Company the largest publicly traded operator of hospitals in the United States. With completion of the Triad acquisition, the Company significantly enhanced the scope of its operations and geographic diversity. The Company remains focused on the key areas for success in its business — an effective centralized and standardized operating platform, effective cost management, a successful physician recruitment program and a favorable reputation in the marketplace.

Financial and statistical data reported in this earnings release includes Triad's operating results from July 25, 2007. For periods prior to the Triad acquisition, the consolidated operating results and statistical data reflect only Community Health Systems, Inc. and its subsidiaries. Same-store operating results and statistical data include comparable information for hospitals acquired from Triad for the months of August through December 2007 and 2006. Continuing operating results and statistical data exclude discontinued operations for all periods presented.

In conjunction with the acquisition of Triad and the integration of the former Triad hospitals' accounting processes into the Company, and a review of the Company's contractual and bad debt allowances, various analyses were performed to assess the net realizable value of accounts receivable, including an updated analysis of historical cash collections. These analyses resulted in updating the assumptions previously used by the former Triad hospitals and management, as well as changing the Company's own estimates. Based upon these analyses, the financial results for the three months and year ended December 31, 2007, include a change in estimates of the Company's contractual and bad debt allowances. The acquisition of Triad necessitated changes in both companies' methodologies, as well as provided additional data and a larger comparative population on which to base the Company's estimates. The information developed from these analyses indicated lower rates of collectability resulting in the Company increasing its contractual reserves and its allowance for doubtful accounts. The Company believes these lower collectability rates are predominantly the result of an increase in the number of patients qualifying for charity care, reduced enrollment in certain state Medicaid programs and an increase in the number of patients who are indigent non-resident aliens. The impact of these changes decreased accounts receivable by \$166.4 million, reduced net operating revenues by \$96.3 million and increased the provision for bad debts by \$70.1 million. This change reduced adjusted EBITDA by \$166.4 million and income from continuing operations by \$105.4 million, or \$1.12 per share (diluted), for the three months and year ended December 31, 2007.

Excluding the change in estimates discussed above, net operating revenues for the three months ended December 31, 2007, totaled \$2.625 billion, a 137.6% increase compared with \$1.105 billion for the same period in 2006. Income from continuing operations decreased 36.7% to \$34.8 million, or \$0.37 per share (diluted), on 94.9 million weighted average shares outstanding for the three months ended December 31, 2007, compared with \$54.9 million, or \$0.58 per share (diluted), on 94.6 million weighted average shares outstanding for the same period in 2006. Net income decreased 68.0% to \$17.2 million, or \$0.18 per share (diluted), compared with \$53.6 million, or \$0.57 per share (diluted), for the same period in 2006.

Including the change in estimates, net operating revenues for the three months ended December 31, 2007, totaled \$2.528 billion, a 128.9% increase compared with \$1.105 billion for the same period in 2006. Loss from continuing operations was \$70.6 million, or \$0.75 per share (diluted), for the three months ended December 31, 2007, compared with income from continuing operations of \$54.9 million, or \$0.58 per share (diluted), for the same period in 2006. Net loss was \$88.3 million, or \$0.94 per share (diluted), compared with net income of \$53.6 million, or \$0.57 per share (diluted), for the same period in 2006. Discontinued operations consisted of an after-tax loss of approximately \$17.6 million, or \$0.19 per share (diluted), related to the sale of three hospitals during the third and fourth quarters of 2007, and 12 hospitals being held for sale at December 31, 2007, one of which was sold on February 1, 2008.

The consolidated financial results for the three months ended December 31, 2007, reflect a 102.1% increase in total admissions compared with the same period in 2006. This increase is primarily attributable to hospitals acquired during 2007, including the former Triad hospitals. On a same-store basis, admissions decreased 0.9% and adjusted admissions increased 0.8%, compared with the same period in 2006. On a same-store basis, net operating revenues increased 1.6%, compared with the same period in 2006.

Excluding the change in estimates, adjusted EBITDA for the three months ended December 31, 2007, was \$354.4 million, compared with \$162.8 million for the same period in 2006, representing a 117.7% increase. Adjusted EBITDA is EBITDA adjusted to exclude discontinued operations, loss from early extinguishment of debt and minority interest in earnings. The Company uses adjusted EBITDA as a measure of liquidity. Net cash provided by operating activities for the three months ended December 31, 2007 was \$283.1 million, compared with \$82.2 million for the same period in 2006.

Including the change in estimates, adjusted EBITDA for the three months ended December 31, 2007, was \$188.1 million, compared with \$162.8 million for the same period in 2006, representing a 15.5% increase.

Excluding the change in estimates for 2007 (but not the change in estimate for 2006), net operating revenues for the year ended December 31, 2007, totaled \$7.224 billion, a 72.8% increase compared with \$4.180 billion for the same period in 2006. Income from continuing operations decreased 7.0% to \$165.3 million compared with \$177.7 million for the same period in 2006. Income from continuing operations increased to \$1.75 per share (diluted) on 94.6 million weighted average shares outstanding compared to \$1.85 per share (diluted) on 96.2 million weighted average shares outstanding for the same period in 2006, and was reduced by an after-tax charge of \$17.5 million, or \$0.18 per share (diluted), for the year ended December 31, 2007, from early extinguishment of debt related to the refinancing of the Company's credit agreement in connection with the Triad acquisition. Net income decreased to \$135.7 million, or \$1.43 per share (diluted), for the year ended December 31, 2007, compared with \$168.3 million, or \$1.75 per share (diluted), for the same period in 2006.

Including the change in estimates, net operating revenues for the year ended December 31, 2007, totaled \$7.127 billion, a 70.5% increase compared with \$4.180 billion for the same period in 2006. Income from continuing operations decreased 66.3% to \$59.9 million compared with \$177.7 million for the same period in 2006. Income from continuing operations was \$0.63 per share (diluted) compared to \$1.85 per share (diluted) for the same period in 2006. Net income was \$30.3 million, or \$0.32 per share (diluted), for the year ended December 31, 2007, compared with \$168.3 million, or \$1.75 per share (diluted), for the same period in 2006.

The consolidated financial results for the year ended December 31, 2007, reflect a 50.4% increase in total admissions compared with the same period in 2006. This increase is primarily attributable to hospitals acquired during 2007, including the former Triad hospitals. On a same-store basis, admissions decreased 1.1% and adjusted admissions increased 0.4%, compared with the same period in 2006. On a same-store basis, net operating revenues increased 4.2%, compared with the same period in 2006.

Excluding the change in estimates for 2007 (but not the change in estimate for 2006), adjusted EBITDA for the year ended December 31, 2007, was \$993.4 million, compared with \$564.3 million for the same period in 2006, representing a 76.0% increase. Including the change in estimates, adjusted EBITDA for the year ended December 31, 2007, was \$827.0 million, compared with \$564.3 million for the same period in 2006, representing a 46.5% increase. Net cash provided by operating activities for the year ended December 31, 2007, was \$687.7 million, compared with \$350.3 million for the same period in 2006.

The consolidated financial results for the year ended December 31, 2006, include the change in estimate of the Company's allowance for doubtful accounts which was recorded in the third quarter ended September 30, 2006, as previously disclosed. The effect of this change resulted in a \$65.0 million increase in the Company's allowance for doubtful accounts on its December 31, 2006 balance sheet and a corresponding \$65.0 million pre-tax increase to the provision for bad debts, which reduced adjusted EBITDA by \$65.0 million and income from continuing operations by \$40.0 million, or \$0.41 per share (diluted), for the year ended December 31, 2006.

"Our fourth quarter performance capped off a year of significant growth and progress for Community Health Systems," said Wayne T. Smith, Chairman, President and Chief Executive Officer of Community Health Systems, Inc. "We reached an important milestone in 2007 with the completion of the Triad acquisition and we have continued to focus on the integration of the Triad facilities into our portfolio of hospitals. We intend to build on our past success as a proven operator and leverage these assets to further extend our record of growth."

During 2007, the Company completed the acquisition of Triad Hospitals, Inc., as well as the acquisition of hospitals in Ruston, Louisiana, and Valparaiso, Indiana.

"We have continued to identify and execute on suitable acquisition opportunities," added Smith. "With the Triad acquisition, we have greatly expanded our market reach, and, more importantly, created the opportunity to enhance the level of healthcare in more communities throughout the country. Looking ahead, we will continue to pursue our strategy of recruiting qualified physicians, making suitable capital investments in our existing facilities and adding essential healthcare services that meet the needs of each community. We are excited about our prospects for 2008 and we remain focused on delivering value to both our shareholders and the communities we serve."

Included on pages 12, 13 and 14 of this press release is a table setting forth the Company's updated 2008 guidance. This guidance reaffirms the Company's previous guidance provided on October 30, 2007, with changes to reflect an additional 12 hospitals classified as held for sale during the fourth quarter and disclosure of the Company's projection range for income from continuing operations per share by quarter.

**Footnotes to Financial Statements**

- (a) Continuing operating results exclude discontinued operations for all periods presented.
- (b) We updated our analysis of the fair value of the assets and liabilities acquired in the Triad acquisition and revised our purchase price allocation of the Triad acquisition based upon the most current estimates. This purchase price allocation remains preliminary and material adjustments to the fair value of assets, liabilities and goodwill may result upon completion of our analyses.
- (c) The effective date of the Triad acquisition was July 25, 2007.
- (d) EBITDA consists of net income (loss) before interest, income taxes, and depreciation and amortization. Adjusted EBITDA is EBITDA adjusted to exclude discontinued operations, loss from early extinguishment of debt and minority interest in earnings. The Company has from time to time sold minority interests in certain of its subsidiaries or acquired subsidiaries with existing minority interest ownership positions. The Company believes that it is useful to present adjusted EBITDA because it excludes the portion of EBITDA attributable to these third party interests and clarifies for investors the Company's portion of EBITDA generated by continuing operations. The Company uses adjusted EBITDA as a measure of liquidity. The Company has included this measure because it believes it provides investors with additional information about the Company's ability to incur and service debt and make capital expenditures. Adjusted EBITDA is the basis for a key component in the determination of the Company's compliance with some of the covenants under the Company's senior secured credit facility, as well as to determine the interest rate and commitment fee payable under the senior secured credit facility.

Adjusted EBITDA is not a measurement of financial performance or liquidity under generally accepted accounting principles. It should not be considered in isolation or as a substitute for net income, operating income, cash flows from operating, investing or financing activities, or any other measure calculated in accordance with generally accepted accounting principles. The items excluded from adjusted EBITDA are significant components in understanding and evaluating financial performance and liquidity. This calculation of adjusted EBITDA may not be comparable to similarly titled measures reported by other companies.

The following table reconciles adjusted EBITDA, as defined, to net cash provided by operating activities as derived directly from the consolidated financial statements for the three months and years ended December 31, 2007 and 2006 (in thousands):

	Three Months Ended December 31,		Year Ended December 31,

- (e) Included in discontinued operations are the following:
- The Company's partnership interest in River West L.P., which limited partnership owned and operated River West Medical Center (80 licensed beds) located in Plaquemine, Louisiana (which partnership interest was sold effective September 1, 2007);
  - Northeast Arkansas Medical Center (104 licensed beds) located in Jonesboro, Arkansas and Barberton Citizens Hospital (312 licensed beds) located in Barberton, Ohio, which were sold during the fourth quarter of 2007;
  - Russell County Medical Center (78 licensed beds) located in Lebanon, Virginia, which was sold on February 1, 2008; and
  - Eleven hospitals with an aggregate total of 1,612 licensed beds, which are classified as held for sale.

### Regulation FD Disclosure

The following table sets forth selected information concerning the Company's updated projected consolidated operating results for the year ending December 31, 2008. This projection is based on the Company's historical operating performance, current trends and other assumptions that the Company believes are reasonable at this time. This guidance reaffirms the Company's previous guidance provided on October 30, 2007, with changes to reflect an additional 12 hospitals classified as held for sale during the fourth quarter and disclosure of the Company's projection range for income from continuing operations per share by quarter.

The following is provided as guidance to analysts and investors:

	2008 Projection Range
Net operating revenues (in millions)	\$11,000 to \$11,300
Adjusted EBITDA (in millions)	\$1,570 to \$1,600
Income from continuing operations per share — diluted	\$2.25 to \$2.45
Same hospitals annual admissions/adjusted admissions growth	0.5% to 1.5%
Same hospitals annual revenue growth	4.5% to 5.5%
Weighted average diluted shares (in millions)	95.0 to 96.0
<b><u>Income from Continuing Operations Per Share — Diluted</u></b>	
1st quarter ending March 31	\$0.50 to \$0.55
2nd quarter ending June 30	\$0.54 to \$0.60
3rd quarter ending September 30	\$0.57 to \$0.62
4th quarter ending December 31	\$0.64 to \$0.68

The following assumptions were used in developing the guidance provided above:

- Includes the previously announced acquisition of Empire Health Services, located in Spokane, Washington, which is expected to occur in the third quarter of 2008. No additional acquisitions are assumed.
- Other than the sale of the hospitals held for sale which have already been announced, one additional divestiture has been assumed in this guidance.
- During the first quarter of 2008, the Company began a process to start the discounting of gross billing charges to self-pay patients. This policy change primarily applies to hospitals owned prior to the Triad acquisition and the Company does not expect the result of this policy change to significantly affect the Company's operating income, as it expects reduced revenues from self-pay patients will be offset by anticipated reduced bad debt expense. The 2008 net operating revenues projection range reflects the estimated impact of this discounting policy. Expressed as a percentage of net operating revenues, the provision for bad debts is projected to be approximately 11.2% to 11.7% for 2008. These percentages may vary depending on changes in payor mix.
- Expressed as a percent of net operating revenues, depreciation and amortization is projected to be approximately 4.5% to 4.8% for 2008; however, this is a fixed cost and the percentages may vary as revenue varies. Due to the continuing analysis related to the determination of the fair values of assets acquired in connection with the Triad and other acquisitions (U.S. GAAP permits up to one year to complete such analyses), any changes in the Company's current estimates may result in changes to depreciation and amortization expense projections.
- For the purpose of providing 2008 interest expense guidance, the Company assumes that the LIBOR rate for borrowing under the Company's \$7.215 billion Senior Secured Credit Facility in 2008 will remain relatively stable to the current LIBOR rate for calendar year 2008. Several interest swap agreements expire in 2008. Since the swap agreements that will replace the expiring swap agreements have terms that are less favorable to the Company, the

- MORE -

Company will realize reduced interest expense savings. Projected interest expense for 2008 also includes amortization on approximately \$200 million of deferred loan costs and original issue discount related to financing the Triad acquisition. Based on these assumptions, expressed as a percentage of net operating revenue, interest expense is projected to be approximately 5.8% to 6.1% for 2008; however, these percentages will vary as revenue varies.

- Expressed as a percentage of net operating revenues, minority interest in earnings is projected to be approximately 0.3% to 0.5% for 2008.
- On December 13, 2006, the Company announced a new open market repurchase program for up to five million shares of the Company's common stock not to exceed \$200 million in purchases. This repurchase program has commenced and will conclude at the earlier of three years or when the maximum number of shares has been repurchased or the maximum dollar amount has been reached. No shares have been purchased under this new repurchase plan and no significant share purchases have been assumed for 2008.
- Included in the above guidance is an assumed estimated pre-tax gain of \$6.0 million to \$8.0 million with an after-tax impact of \$4.0 million to \$5.0 million, or \$0.04 to \$0.05 per share (diluted), related to the projected sale during the first half of 2008 of excess land currently held by the Company.
- Expressed as a percentage of income before income taxes, provision for income tax is projected to be approximately 38.4% to 39.4% for 2008.
- Capital expenditures are projected as follows (in millions):

Total	2008 Guidance <u>\$775 to \$800</u>
-------	---

- The following table reconciles adjusted EBITDA, as presented in the guidance shown on page 12, to the Company's estimated net cash provided by operating activities (in millions):

	2008	
Adjusted EBITDA	\$ 1,570	to \$ 1,600
Taxes and interest expense	(810)	to (825)
Other non-cash expenses and net changes in operating assets and liabilities	(10)	to 25
Net cash provided by operating activities	<u>\$ 750</u>	<u>to \$ 800</u>

- Included in the above guidance for the fourth quarter ending December 31, 2008, is the estimated impact relative to an expected full market basket index increase under the Medicare inpatient prospective payment system coupled with modifications to the Medicare inpatient diagnosis related groups.
- The Company's guidance does not take into account any resolution of the previously disclosed allegation by the Civil Division of the U.S. Department of Justice that the Company and three of our New Mexico hospitals have caused the State of New Mexico to submit improper claims for federal funds in violation of the Civil False Claims Act. In a letter dated January 22, 2008, the Civil Division notified us that based on its investigation, it has calculated that these three hospitals received ineligible federal participation payments from August 2000 to June 2006 of approximately \$27.5 million. The Civil Division advised us that were it to proceed to trial, it would seek treble damages plus an appropriate penalty for each of the violations of the False Claims Act. Discussions are continuing with the Civil Division in an effort to resolve this matter. The Company continues to believe that it has not violated the Federal False Claims Act in the manner described in the government's letter of January 22, 2008.

The projections set forth in this report constitute forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Exchange Act and the Private Securities Litigation Reform Act of 1995. Although the

- MORE -

Company believes that these forward-looking statements are based on reasonable assumptions, these assumptions are inherently subject to significant economic and competitive uncertainties and contingencies, which are difficult or impossible to predict accurately and are beyond the control of the Company. Accordingly, the Company cannot give any assurance that its expectations will in fact occur and cautions that actual results may differ materially from those in the forward-looking statements. A number of factors could affect the future results of the Company or the healthcare industry generally and could cause the Company's expected results to differ materially from those expressed in this filing.

These factors include, among other things:

- general economic and business conditions, both nationally and in the regions in which we operate;
- our ability to successfully integrate any acquisitions or to recognize expected synergies from such acquisitions, including the recently acquired former Triad hospitals;
- risks associated with our substantial indebtedness, leverage and debt service obligations;
- demographic changes;
- existing governmental regulations and changes in, or the failure to comply with, governmental regulations;
- legislative proposals for healthcare reform;
- the impact of the Medicare Prescription Drug, Improvement and Modernization Act of 2003, which includes specific reimbursement changes for small urban and non-urban hospitals;
- potential adverse impact of known and unknown government investigations;
- our ability, where appropriate, to enter into managed care provider arrangements and the terms of these arrangements;
- changes in inpatient or outpatient Medicare and Medicaid payment levels;
- increases in the amount and risk of collectibility of patient accounts receivable;
- increases in wages as a result of inflation or competition for highly technical positions and rising supply costs due to market pressure from pharmaceutical companies and new product releases;
- liability and other claims asserted against us, including self-insured malpractice claims;
- competition;
- our ability to attract and retain qualified personnel, key management, physicians, nurses and other health care workers;
- trends toward treatment of patients in less acute or specialty healthcare settings, including ambulatory surgery centers or specialty hospitals;
- changes in medical or other technology;
- changes in generally accepted accounting principles;
- the availability and terms of capital to fund additional acquisitions or replacement facilities;
- our ability to successfully acquire additional hospitals and complete the sale of hospitals held for sale;
- our ability to obtain adequate levels of general and professional liability insurance;
- timeliness of reimbursement payments received under government programs; and
- the other risk factors set forth in our public filings with the Securities and Exchange Commission.

The consolidated operating results for the quarter and year ended December 31, 2007, are not necessarily indicative of the results that may be experienced for any such future period or for any future fiscal year, including this fiscal year.

The Company cautions that the projections for calendar year 2008 set forth in this press release are given as of the date hereof based on currently available information. The Company is not undertaking any obligation to update these projections as conditions change or other information becomes available.
