Item 7.01. Regulation FD Disclosure.

On February 27, 2019, Community Health Systems, Inc. (the “Company”) announced the launch of a proposed offering of senior secured notes by its wholly owned subsidiary, CHS/Community Health Systems, Inc. In connection with the proposed offering, the Company disclosed the following information with respect to its portfolio rationalization and deleveraging strategy to prospective investors:

In 2019, through February 26, 2019, the Company divested one immaterial hospital and four hospitals were subject to definitive agreements for divestiture. Annual net operating revenues in 2017 for these four hospitals was \$394 million, and the Company anticipates receiving net proceeds of approximately \$135 million from the sale of these four hospitals. The Company expects the sale of these four hospitals to close in March 2019. In addition to these hospitals, the Company continues to receive interest from potential buyers for certain of its hospitals. These sale transactions are currently in various stages of negotiation with potential buyers. There can be no assurance that any or all of the potential divestitures (or the potential divestitures currently subject to definitive agreements) will be completed, or if they are completed, the ultimate timing of the completions of these divestitures. The Company expects to use proceeds from divestitures to reduce debt and/or reinvest in its facilities to strengthen its regional networks and local market operations.
