- Additionally, six hospitals were sold effective October 1, 2017, and two hospitals were sold effective November 1, 2017. Actual and same-store operating results include the results of these eight hospitals in 2017 and the comparable periods in 2016.

Net operating revenues for the three months ended September 30, 2017, totaled \$3.666 billion, a 16.3 percent decrease, compared with \$4.380 billion for the same period in 2016. During the three months ended September 30, 2017, the Company recorded a non-cash expense totaling \$33 million related to impairment charges to reduce the value of long-lived assets at hospitals that the Company has identified for sale. The impairment charges do not have an impact on the calculation of the Company's financial covenants under the Company's Credit Facility.

The results for the three months ended September 30, 2017, included a loss of \$(0.19) per share (diluted) related to impairment and (gain) loss on sale of businesses, loss of \$(0.02) per share (diluted) from early extinguishment of debt, loss of \$(0.01) per share (diluted) related to government and other legal settlements and related costs, and loss of \$(0.01) per share (diluted) related to employee termination benefits and other restructuring charges. These expenses were partially offset by income of \$0.04 per share (diluted) related to fair value adjustments on the CVR agreement liability accounted for at fair value related to the HMA legal proceedings, and related legal expenses. Excluding these items, loss from continuing operations was \$(0.77) per share (diluted).

Net loss attributable to Community Health Systems, Inc. common stockholders was \$(110) million, or \$(0.98) per share (diluted) for the three months ended September 30, 2017, compared with \$(79) million, or \$(0.71) per share (diluted) for the same period in 2016. Excluding these items, loss from continuing operations was \$(0.95) per share (diluted).

Impact of Hurricanes Harvey and Irma on Operating Results

During August and September 2017, the Company's facilities in Victoria, Texas, experienced an interruption in business and incurred additional costs as a direct result of the landfall of Hurricane Harvey. Also during September 2017, due to the broad regional impact of Hurricane Irma, many of the Company's hospital operations in the state of Florida and at one of its hospitals in the state of Georgia experienced a disruption, with the most significant impact on hospital operations in Key West and Punta Gorda, Florida. The Company currently estimates that these hurricanes resulted in a loss of net operating revenues together with incremental expenses directly related to hurricane response efforts of approximately \$40 million in the aggregate during the three months ended September 30, 2017. The impact on net operating revenues is the direct result of the evacuations and population disruption prior to the hurricanes, as well as during the aftermath and recovery efforts in the communities affected by the hurricanes. This estimated impact is prior to any insurance recoveries which the Company may receive.

Due to the timing of these extreme weather events, the above estimate of the associated impact of these hurricanes may be updated in the future as the Company continues its clean-up and remediation efforts and accumulates information necessary to assess the fourth quarter impact of these hurricanes and provide loss-related data to the Company's insurance carriers for property losses and business interruption coverage. Because of the required accounting for such insurance recoveries as gain contingencies, the timing and amount of such insurance proceeds will not be recognized until future periods when any such gains are realized. Future property losses or impairment charges on its long-lived assets may be recorded based on a final assessment of damage and estimated impact on future cash flows for the affected hospitals.

The Company completed its divestiture of six hospitals on October 1, 2017, and two hospitals on November 1, 2017, bringing its total completed divestitures during 2017 to the previously announced 30 hospitals that had been subject to definitive agreements. In addition to the previously announced divestiture of 30 hospitals, the Company continues to receive interest from acquirers for certain of its hospitals. The Company is pursuing these interests for sale transactions involving hospitals with a combined total of at least \$2.0 billion in annual net operating revenues and combined mid-single digit Adjusted EBITDA margins.

Adjusted EBITDA, a non-GAAP financial measure, is EBITDA adjusted to add back net income attributable to noncontrolling interests and to exclude the effect of discontinued operations, loss from early extinguishment of debt, impairment and (gain) loss on sale of businesses, gain on sale of investments in unconsolidated affiliates, expense incurred related to the spin-off of QHC, expense incurred related to the sale of a majority ownership interest in the Company's home care division, expense (income) related to government and other legal settlements and related costs, expenses related to employee termination benefits and other restructuring charges, and (income) expense from fair value adjustments on the CVR agreement liability accounted for at fair value related to the HMA legal proceedings, and related legal expenses. For information regarding why the Company believes Adjusted EBITDA presents useful information to investors, and for a reconciliation of Adjusted EBITDA to net income attributable to Community Health Systems, Inc. stockholders, see footnote (e) to the Financial Highlights, Financial Statements and Selected Operating Data below.

Commenting on the results, Wayne T. Smith, chairman and chief executive officer of Community Health Systems, Inc., said, "Numerous factors affected our operating and financial results in the third quarter, including lower volumes, divestiture activity and extreme weather events. Hurricanes Harvey and Irma directly impacted operations at a significant number of our hospitals, forcing evacuations at some facilities and requiring others to take extraordinary measures to remain operational during these storms. We are proud of the incredible effort and compassionate response of our hospital teams who worked to keep patients safe, helped enable first responders in their rescue missions, and provided immediate relief in the aftermath of the hurricanes. Our company and hospitals continue to provide recovery support for their communities and for those employees who suffered personal losses as a result of the storms. In times like these, we are reminded of the courage and resilience of our caregivers and how important all hospitals are to the communities they serve."

Smith added, "Looking forward, we remain focused on strategic initiatives that we believe will yield positive results in the future. We've made substantial progress in our portfolio rationalization initiative with 30 hospital divestitures now complete. Our goal is to emerge from this process with a sustainable group of hospitals that are positioned for long-term success and growth."

Included on pages 18, 19, 20 and 21 of this press release are tables setting forth the Company's 2017 annual earnings guidance. The updated 2017 guidance is based on the Company's historical operating performance, current trends and other assumptions that the Company believes are reasonable at this time, and reflects the impact of divestitures that the Company has completed in 2017.

Footnotes to Financial Highlights, Financial Statements and Selected Operating Data

- (a) Continuing operating results exclude discontinued operations for the three and nine months ended September 30, 2017 and 2016. Both financial and statistical results exclude entities in discontinued operations for all periods presented. Same-store operating results and statistical data exclude information for the hospitals sold during the period and the hospitals divested in the spin-off of QHC in the comparable period in 2016.
- The contingent value right ("CVR") entitles the holder to receive a cash payment up to \$1.00 per CVR (subject to downward adjustment but not below zero), subject to the final resolution of certain legal matters pertaining to Health Management Associates, Inc. ("HMA"), as defined in the CVR agreement. If the aggregate amount of applicable losses under the CVR agreement exceeds a deductible of \$18 million, then the amount payable in respect of each CVR shall be reduced (but not below zero) by an amount equal to the quotient obtained by dividing: (a) the product of (i) all losses in excess of the deductible and (ii) 90%; by (b) the number of CVRs outstanding on the date on which final resolution of the existing litigation occurs. Since the HMA acquisition date of January 27, 2014, approximately \$33 million in costs have been incurred and approximately \$30 million of settlements have been paid related to certain HMA legal matters, which collectively exceed the deductible of \$18 million under the CVR agreement. The Company previously recorded an estimated fair value of the remaining underlying claims that will be covered by the CVR of \$284 million as part of the acquisition accounting for HMA, which, after consideration of amounts paid and current estimates of valuation inputs, has been adjusted to its estimated fair value of \$256 million at September 30, 2017. In addition, although future legal fees (which are expensed as incurred) associated with the HMA legal matters have not been accrued or included in the table below, such legal fees are taken into account in determining the total amount of reductions applied to the amounts owed to CVR holders. For the CVR valuation at September 30, 2017, the change in fair value from the previous quarter was primarily the result of an increase in the discount rate applied to the estimated settlement amount.

The following table presents the impact of the recorded amounts as described above as applied to the CVR and the \$18 million deductible and 10% co-insurance amounts (in millions):

	Sep	As of tember 30, 2017

(c) Included in discontinued operations for the three and nine months ended September 30, 2017 and 2016, are three smaller hospitals, two of which are being actively marketed for sale and one hospital that sold effective May 1, 2017. The after-tax loss for the sold or held for sale hospitals, was approximately \$2 million for both of the three-month periods ended September 30, 2017 and 2016, and approximately \$10 million and \$5 million for the nine months ended September 30, 2017 and 2016, respectively.

EBITDA is a non-GAAP financial measure which consists of net loss attributable to Community Health Systems, Inc. before interest, income taxes, and depreciation and amortization. Adjusted EBITDA, also a non-GAAP financial measure, is EBITDA adjusted to add back net income attributable to noncontrolling interests and to exclude the effect of discontinued operations, loss from early extinguishment of debt, impairment and (gain) loss on sale of businesses, gain on sale of investments in unconsolidated affiliates, expense incurred related to the spin-off of QHC, expense incurred related to the sale of a majority ownership interest in the Company's home care division, expense (income) related to government and other legal settlements and related costs, expense related to employee termination benefits and other restructuring charges, and (income) expense from fair value adjustments on the CVR agreement liability accounted for at fair value related to the HMA legal proceedings, and related legal expenses. During the three months ended June 30, 2017, the Company incurred a significant amount of and included an adjustment for employee termination benefits and other restructuring charges in Adjusted EBITDA. The Company has included this adjustment (and intends to continue including this adjustment on a prospective basis) based on its belief that such expense, which may differ significantly between periods in a manner not correlated with the Company's ongoing operational performance, is consistent with management's intended use of Adjusted EBITDA to assess the Company's results of operations and compare operating results between periods. The Company has from time to time sold noncontrolling interests in certain of its subsidiaries or acquired subsidiaries with existing noncontrolling interest ownership positions. The Company believes that it is useful to present Adjusted EBITDA because it adds back the portion of EBITDA attributable to these third-party interests and clarifies for investors the Company's portion of EBITDA generated by continuing operations. The Company reports Adjusted EBITDA as a measure of financial performance. Adjusted EBITDA is a key measure used by management to assess the operating performance of the Company's hospital operations and to make decisions on the allocation of resources. Adjusted EBITDA is also used to evaluate the performance of the Company's executive management team and is one of the primary targets used to determine short-term cash incentive compensation. In addition, management utilizes Adjusted EBITDA in assessing the Company's consolidated results of operations and operational performance and in comparing the Company's results of operations between periods. The Company believes it is useful to provide investors and other users of the Company's financial statements this performance measure to align with how management assesses the Company's results of operations. Adjusted EBITDA also is comparable to a similar metric called Consolidated EBITDA, as defined in the Company's senior secured credit facility, which is a key component in the determination of the Company's compliance with some of the covenants under the Company's senior secured credit facility (including the Company's ability to service debt and incur capital expenditures), and is used to determine the interest rate and commitment fee payable under the senior secured credit facility (although Adjusted EBITDA does not include all of the adjustments described in the senior secured credit facility).

Adjusted EBITDA is not a measurement of financial performance under U.S. GAAP. It should not be considered in isolation or as a substitute for net income, operating income, or any other performance measure calculated in accordance with U.S. GAAP. The items excluded from Adjusted EBITDA are significant components in understanding and evaluating financial performance. The Company believes such adjustments are appropriate as the magnitude and frequency of such items can vary significantly and are not related to the assessment of normal operating performance. Additionally, this calculation of Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies.

- (g) The following table sets forth components reconciling the basic weighted-average number of shares to the diluted weighted-average number of shares (in millions):

The Company generated a loss from continuing operations attributable to Community Health Systems, Inc. common stockholders for the three and nine months ended September 30, 2017 and 2016, so the effect of dilutive securities is not considered because their effect would be antidilutive. If the Company had generated income from continuing operations during the three months ended September 30, 2017 and 2016, the effect of restricted stock awards on the diluted shares calculation would have been an increase of 148,768 shares and 445,732 shares, respectively. If the Company had generated income from continuing operations during the nine months ended September 30, 2017 and 2016, the effect of restricted stock awards on the diluted shares calculation would have been an increase of 147,618 shares and 225,334 shares, respectively.

Footnotes to Financial Highlights, Financial Statements and Selected Operating Data (Continued)

- Both income from operations and loss from continuing operations for the three and nine months ended September 30, 2017, included non-cash expense (i) of approximately \$33 million and \$363 million, respectively, related to impairment charges to reduce the value of long-lived assets, primarily allocated goodwill, at hospitals that the Company has identified for sale or sold. Both income from operations and loss from continuing operations for the three months ended September 30, 2016, included an impairment charge of approximately \$39 million, primarily related to the allocation of hospital reporting unit goodwill to four hospitals classified as held for sale in September 2016 upon the execution of a definitive agreement to sell such hospitals as announced by us on September 29, 2016, as well as the updated measurement of the estimated impairment charge recorded during the three months ended June 30, 2016. Both loss from operations and loss from continuing operations for the nine months ended September 30, 2016, included an impairment charge of approximately \$1.695 billion, of which \$1.395 billion was a charge related to the write-down of a portion of the goodwill for the Company's hospital operation reporting unit, and \$283 million was a charge related to the adjustment of the fair value of long-lived assets at certain of the Company's underperforming hospitals and some of the hospitals that the Company was marketing for sale that had experienced declining operating results or had a decline in their estimated fair value since the Company's previous impairment review. Also, included in loss from operations and loss from continuing operations for the nine months ended September 30, 2016, was an impairment charge of approximately \$17 million incurred during the three months ended March 31, 2016, related to the write-down of a portion of the goodwill allocated to the divestitures of Lehigh Regional Medical Center and Bartow Regional Medical Center, as well as the impairment of certain long-lived assets at one of the Company's smaller hospitals where the decision was made during the quarter ended March 31, 2016, to permanently close the hospital. These impairment charges do not have an impact on the calculation of the Company's financial covenants under the Company's Credit Facility.
- (j) The \$(0.01) per share (diluted) of expense for "Government and other legal settlements and related costs" for the three months ended September 30, 2017, is the settlement in principle of several lawsuits during the three months ended September 30, 2017, and related legal expenses. The \$0.19 per share (diluted) of income for "Government and other legal settlements and related costs" for the nine months ended September 30, 2017, is primarily the impact of the shareholder derivative action settled during the nine months ended September 30, 2017, net of related legal expenses. The \$0.06 per share (diluted) of expense for "Government and other legal settlements and related costs" for the three and nine months ended September 30, 2016, is the net impact of several lawsuits settled in principle during the three and nine months ended September 30, 2016, and related legal expenses.
- (k) On April 29, 2016, the Company sold its unconsolidated minority equity interests in Valley Health System, LLC, a joint venture with Universal Health Systems, Inc. ("UHS") representing four hospitals in Las Vegas, Nevada, in which the Company owned a 27.5% interest, and in Summerlin Hospital Medical Center, LLC, a joint venture with UHS representing one hospital in Las Vegas, Nevada, in which the Company owned a 26.1% interest. The Company received \$403 million in cash in return for the sale of its equity interests and recognized a \$94 million gain on sale of investments in unconsolidated affiliates during the nine months ended September 30, 2016.

Regulation FD Disclosure

Set forth below is selected information concerning the Company's projected consolidated operating results for the year ending December 31, 2017. These projections update selected guidance issued on August 1, 2017, and are based on the Company's historical operating performance, current trends and other assumptions that the Company believes are reasonable at this time. The 2017 guidance should be considered in conjunction with the assumptions included herein. See pages 20 and 21 for a list of factors that could affect the future results of the Company or the healthcare industry generally.

The following is provided as guidance to analysts and investors:

	2017 Projection Range		
Net operating revenues less provision for bad debts (in millions)	\$15,800	to	\$15,900
Adjusted EBITDA (in millions)	\$ 1,675	to	\$ 1,725
Loss from continuing operations per share—diluted	\$ (1.30)	to	\$ (1.20)
Same-store hospital annual adjusted admissions decline	(2.0)%	to	(1.5)%
Weighted-average diluted shares, in millions	112.0	to	112.5

The following assumptions were used in developing the 2017 guidance provided above:

- The divestiture of 30 hospitals included in continuing operations, all of which divestitures were completed in 2017 on or before November 1, 2017. These hospitals generated approximately \$3.4 billion of net operating revenues in 2016 with mid-single digit Adjusted EBITDA margins. These divestitures generated approximately \$1.95 billion in gross proceeds, including working capital.
- The Company's projections also exclude the following:
 - Gains associated with the settlement of the shareholder derivative action in January 2017;
 - Payments related to the CVRs issued in connection with the HMA acquisition, and changes in the valuation of liabilities underlying the CVR:
 - Losses from the early extinguishment of debt;
 - Impairment of goodwill and long-lived assets;
 - Employee termination benefits and restructuring costs;
 - Resolution of government investigations or other significant legal settlements;
 - Costs incurred in connection with divestitures;
 - Insurance recoveries that may be received for property losses and business interruption coverage related to Hurricanes Harvey and Irma; and
 - Other significant gains or losses that neither relate to the ordinary course of business nor reflect the Company's underlying business performance.
- The Company has two small hospitals which remain held for sale for which the operating results have been classified in discontinued operations and have been excluded from the Company's guidance.

Other assumptions used in the above guidance:

- Health Information Technology (HITECH) electronic health records incentive reimbursement of approximately \$25 million to \$30 million for the year ending December 31, 2017.
- Same-store hospital annual adjusted admissions decline of (2.0)% to (1.5)% for 2017, which does not take into account service closures and weather-related or other unusual events.

November 1, 2017

- Expressed as a percentage of net operating revenues, depreciation and amortization of approximately 5.5% to 5.6% for 2017. Additionally, this is a fixed cost and the percentages may change as revenue varies. Such amounts exclude the possible impact of any future hospital fixed asset impairments and additional hospitals which may be classified as held for sale.
- Interest expense, expressed as a percentage of net operating revenues, of approximately 5.8% to 5.9%; however, interest expense may vary as revenue varies. Interest expense has been adjusted to reflect the Company's refinancing transactions in March 2017 and May 2017 and the repayment of debt with proceeds from the divestitures completed during 2017. Projected interest expense does not consider any future refinancing transactions. Total fixed rate debt, including swaps, is expected to average approximately 75% to 85% of total debt during 2017.
- Expressed as a percentage of net operating revenues, net income attributable to noncontrolling interests of approximately 0.5% to 0.6% for 2017.
- Expressed as a percentage of loss from continuing operations before income taxes, benefit from income taxes of approximately 25.0% to 27.0% for 2017, which includes the impact of adopting ASU 2016-09 on the tax provision for the vesting of equity-based compensation.

A reconciliation of the Company's projected 2017 Adjusted EBITDA, a forward-looking non-GAAP financial measure, to the Company's projected net loss attributable to Community Health Systems, Inc. stockholders, the most directly comparable GAAP financial measure, is shown below:

		Year Ending December 31, 2017	
	Low	High	
Net loss attributable to Community Health Systems, Inc. stockholders (1)	\$ (146)	\$ (134)	
Adjustments:			
Depreciation and amortization	870	880

Benefit from income taxes	(54)	(44)	
Net income attributable to noncontrolling interests	80	88	
Adjusted EBITDA (1)	\$1,675	\$1,725	

- (1) The Company does not include in this reconciliation the impact of certain items not included in the Company's forecast set forth above that would be included in a reconciliation of historical net loss attributable to Community Health Systems, Inc. stockholders to Adjusted EBITDA such as, but not limited to, losses from early extinguishment of debt, impairment and (gain) loss on sale of businesses, and expense (income) related to government and other legal settlements and related costs, in light of the fact that such items are not determinable and/or the inherent difficulty in quantifying such projected amounts on a forward-looking basis.
 - Capital expenditures are projected as follows (in millions):

		2017 Guidance
